### TERMS OF ACCEPTANCE

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective.

Chiropractic has one primary goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

**Adjustment:** An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

**Health:** A state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

**Vertebral Subluxation:** A misalignment of one or more of the 24 vertebra in the spinal column, which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

Chiropractors, Osteopaths, Medical Doctors using manual manipulation should advise their patients:

1. With neck problems there have been very rare incidents of injury to the vertebral artery during the course of treatment. These have caused stroke or stroke-like occurrences, which are usually of a temporary nature.
2. With back problems there have been rare incidents of rib separation, fracture, disc disease, bruising, swelling or aggravation of symptoms during the course of treatment.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECT WE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I, \_\_\_\_\_ have read and fully understand the above statements.
